Food and Meals Information:

You need to provide the student with three (3) meals daily. It is required that the student eats dinner with the host family. Conversation at dinner time is very important to connect with the student and to help the student practice English.

Host Family Activities:

Host family and student must spend time in the evenings and on weekends. The student must be included/involved in the host family activities; such as: sports, music, church, etc.

Please, describe your usual family activities in the evenings and weekends:

Transportation:

You need to provide airport drop off and pick up at least four times a year. This is included in the monthly stipend.

Students must be transported to school and be picked up from school every day. If they take the bus, you must provide transportation to and from the bus stop.

Are you willing to provide transportation to the student after school if they decide to participate in tutoring, sports, club, etc.? _____

Christmas:

Most students return home during the Christmas season. You need to bring them to an airport. The host family monthly payment will be paid in full amount for December.

Summer Break:

There is no payment during the summer. The student will pay a \$100 storage fee directly to the host family when the student goes to his Country for summer vacation. The student's belongings can be stored in the garage or in a safe place of the house.

In order for you to be approved as a host family by the CFC Company, you must agree to the CFC Company Host Family Agreement, and send it back to me, along with:
